## Selling Their Birthright

For a few thousand dollars San Francisco would sell the state to the Japanese, providing that Japan will have an exhibit at the Panama Pacific exposition in 1915. After the exposition is over the San Francisco press admit that no harm would result in passing anti-alien legislation, but pending the exposition opening it is desired to keep the matter quiet. This expression is given by the Chronicle which openly admits the motives that actuated the opposition to the bill during the time it was being considered by the legislature. The Chronicle expression is as follows:

The Chronicle, with nine-tenths of the people of California, is opposed to permitting ownership of land in California by any of the distinctively Eastern Asiatic immigrants. It believes that the Japanese government is as strongly opposed to Japanese ownership of land in this country as the Chronicle is. This is because the wise and far seeing statesmen of Japan understand as well as we that extensive Japanese colonization in California would ultimately result in outbreaks which would produce an exceedingly dangerous international situation.

And, moreover, the Japanese government is extremely desirous to have its subjects emigrate not only to Corea, Formosa and Southern Saghalien, which are Japanese territory, but to Manchuria, which is under Japanese control.

Therefore we firmly believe that Japan is as willing and anxious as we can be to co-operate with our own government in making Japanese colonization impossible.

The Japanese time honored policy of restricting ownership of land to citizens is a wise policy for and nation and we should have been better off had all the states from the beginning adhered to that policy. But, such immense values have been permitted to pass to the ownership of alien but assimilable peoples that as a matter of practical statesmanship they cannot be disturbed. We do not desire to get into that condition in respect to peoples whom we can not assimilate.

The objection the Japanese is not that they are our inferiors in any respect, but, on the contrary, that economically they can outmatch us in the struggle for existence, and that socially their habits of thought, made unchangeable and ineradicable by the traditions of centuries, are so different from our own that joint social life is impossible. When a Japanese colony is established in an American rural community the Americans go.

That is why the Chronicle, and we believe the Japanese government, is opposed to Japanese colonization in California. And that, although there are no more delightful people to meet than the high class Japanese.

The reason why the alien land bill should not become a law at this time are many. For example:

California should not take the time when we are inviting all nations to visit us to do any act that any nation may consider unfriendly.

The Japanese government, like our own government, has a great population to deal with and all delicate international questions, in the interest of international good feeling, ought to be dealt with diplomatically until it becomes evident that diplomacy cannot avail.

Almost the entire eastern part of the country is solidly and energetically against California in this question and there are influences far more potent than any in California ready to urge congress to confer at once the right of naturalization on the Japanese.

The agitation may, and almost certainly will induce the energetic prosecution of a suit to the supreme court of the United States to determine whether Japanese are not now capable of being naturalized.

And no wise person will feel too cock sure that in such a suit we should not lose our case.

This being the situation we are unfaithful to our own interests and to our obligations as a state of the union not to leave, for the present, this matter in the hands of our own government.

And while we do that it is utter imbecility for us to so conduct ourselves as to inflame the Japanese government to be uncompromising.

But that is what we get by electing a dictatorial and hateful state administration with no sense of reasonableness, wisdom or decency.

The greatest silver camp on the continent extends welcome to the visiting delegates of the F. O. E.

Never mind swatting the fly; just spend your spare time in devising means for the entertainment of the visiting Eagles.

It is the duty of every man, woman and child in Tonopah to assist in extending welcome to the delegates attending the state aerie convention.

## BACKACHE IS A WARNING

TONOPAH PEOPLE SHOULD NOT NEGLECT THEIR KIDNEYS

Backache is often nature's most frequent signal of weakened kidneys. To relieve the pains and aches, to remove the lameness when it arises from weakened kidneys, you must reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Doan's Kidney Pills have been proved good and are especially for weak kidneys. Doan's have been used in kidney trouble for over 50 years. Here is convincing proof of merit. It comes from this locality.

W. T. King, W. King st., Carson City, Nev., says: "I suffered so severely from backache that I could hardly stoop. Doan's Kidney Pills were the only remedy that had an effect on my trouble, and I am glad to say that they made a complete cure."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. 5adv.

## GOVERNOR WILL BE SEEN IN "MOVIES"

Moving picture men with their cameras have been haunting the executive chamber since Monday night spluttering their celluloid films with executive features, says the Sacramento Union. Bright and early Monday morning a San Francisco company had its operators at the capitol to take pictures of Governor Johnson signing the alien land bill. Except for those who aid the executive in bearing the innermost secrets of state, no one knew just when the bill was to be signed apparently, but the moving picture men.

The operators were on the job to take views of the governor and advisory board of the state department of engineering in session to open bids on the second largest cement contract that has ever been let.

Motion picture advertising by men in public life and by actors and actresses has proved well worth the price in many instances. Whether it is the presidential plum, the gubernatorial plum or again the United States senatorship which the Bull Moose chief covets, no one knows. At least the occupant of the gubernatorial chair has as yet not taken the public into his confidence with reference to his future ambitions along political lines.

John Drew, DeWolfe Hopper, Gaby Deslys and other noted stage performers have found their motion picture advertising most fruitful. California's executive, whose voice has not yet penetrated to Coon Hollow, should find such advertising equally beneficial.

## MEETING NOTICES.
